

# Your Brain on Drugs

Fall 2017

*Dr. Cassandra Gipson-Reichardt*

PSY 394 88602

Tues/Thur 10:30 – 11:45 AM

SCOB 210

Prereqs: PSY 101

With a C or better,  
plus 30 credit hours

Learn more about the many classes of addictive drugs, how they interact with nerve cells and essentially “re-wire” the brain to produce addiction, and the mechanisms underlying biologically-based addiction treatment approaches.
